PROJECTS CERTIFICATION

LEED and BREEAM are two voluntary certifications for sustainable construction that assess the environmental and social impact of buildings. Both certifications are of private origin and are based on criteria such as energy efficiency, water use, indoor environmental quality, waste management and integration with the environment.

We have a **wide range of products that adapt to the specifications requested in both certifications**, thus both certifications, achieving an efficient use of water.

LEED

Leed is a certification system for sustainable buildings developed by the U.S. Green Building Council. Green Building Council of the United States.

PROJECT CERTIFICATIONS

platinum	≥ 80
gold	≥ 60
silver	≥ 50
certified	≥ 40
unclassified	< 40

BREEAM

Breem is the world's most widespread sustainability certification in building and of British **origin adapted to Spanish regulations**.

PROJECT CERTIFICATIONS

exceptional	≥ 85
excellent	≥ 70
very good	≥ 55
good	≥ 45
correct	≥ 30
unclassified	< 30

How do the **taps affect** the achievement of these certificates?

Taps are a key element for the sustainability of buildings, as they have a direct influence on water and energy consumption, so it is important to choose taps that meet these energy and hydric efficiency requirements.

LEED

MAXIMUM FLOW	
WASH BASINS (l/min)	6,6
SHOWERS (l/min)	7,6
KITCHENS (l/min)	6,6

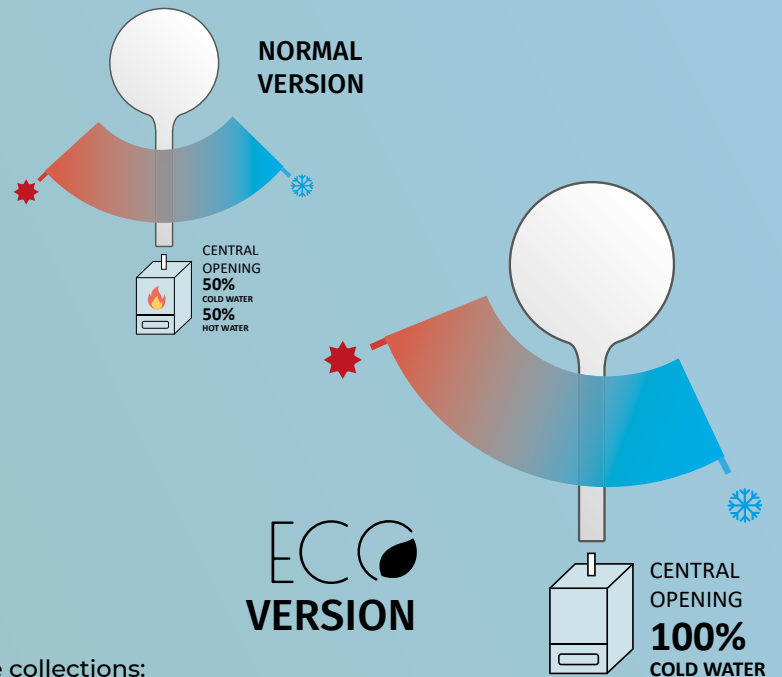

BREEAM*

SCORE	1	2	3	4	5
WASH BASINS (l/min)	8	7	6	5	3
WASH BASINS (l/min)	10	9	8	8	6
KITCHENS (l/min)	10	7,5	5	5	5

Minimal flow recommended by **GRB** like manufacturer

HOW DOES GRB HELP OBTAIN ECOLOGICAL CERTIFICATIONS?

We offer the possibility of converting our taps into an ECO version, which **limits the flow** rate of the tap incorporates “**Central cold opening**” in wash basins and bidets

IN WHICH COLLECTIONS?

We have available the entire range of products from the collections:

			TIME	COOL	TENDER	E-PLUS	ECO-PRIME	TEN PRO
PRODUCTO DE SERIE	FLOW (l/min)	wash basins / bidets	5	5	12	5	12	12
		showers	14	14	12	9	12	12
		kitchens	6,5	6,5	12	5	8	16
	CENTRAL COLD OPENING	wash basins / bidets	-	-	-	yes	yes	-
ECO VERSION (CENTRAL COLD OPENING)		wash basins / bidets	yes					

HOW TO ORDER?

To request it, add ECO to the end of the product code, followed by the flow to which you want to limit the flow.

As manufacturers, to guarantee comfort of use, our minimum flow recommendation is:

- Wash basins, bidets and kitchens: **5 l/min**
- Showers: **7 l/min**

Example: **XX XXX XXX** **ECO5**
GRB Product reference Flow (l/min)
ECO Version

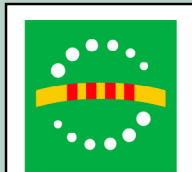

Example: **137 900 ECO7** - TENDER Shower Thermostatic with column ECO flow 7 l/min

Example: **910 900 ECO6** - TENDER Wash basin mixer ECO flow 5 l/min

ECOLOGICAL PRODUCTS CERTIFICATION

DISTINTIU

Distinctive is a stamp of guarantee granted by the Generalitat of Catalonia **environmental quality** that recognizes, certifies, and warrants, products and services that exceed certain quality requirements environment beyond the set as mandatory.

Distintiu de
garantia
de qualitat
ambiental

CERTIFIED PRODUCTS:

Eco-Prime Bath-shower Thermostatic (ref.: **102 200**)
Winner Bath-shower Thermostatic (ref.: **44 210 440**)
Winner Thermostatic Shower (ref.: **44 310 440**)
Tender Bath-shower Thermostatic (ref.: **106 900**)
Tender Thermostatic Shower (ref.: **131 900**)
Eco-Prime Thermostatic Shower (ref.: **137 200**)
Tender Built-in Wash Basin Mixer (ref.: **910 900**)
Eco-Prime Built-in Wash Basin Mixer (ref.: **15 510 150**)

Unified Water Label

Water Label is a labeling system created by the European Commission, which through pictograms, allows the user to know **the water and energy efficiency** characteristics of our certified products.

CERTIFIED PRODUCTS: E-Plus Collection
